## Advanced features

Allworx provides Advanced Feature options to help your business increase its productivity, efficiency and customer response.

### Call Assistant™

Live answer position allows operators to easily manage incoming calls via a software tool.

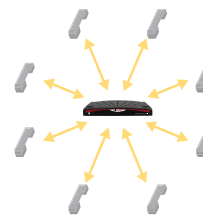

### Call Queuing™

A cost-effective call queue solution designed for small businesses.

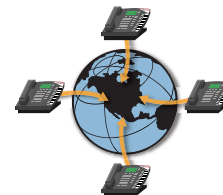

### Group Calendaring™

Scheduling meetings, reminders for meetings/ deliverables — all compatible with third-party email clients.

### Conference Center™

Allows you to host conference calls with remote colleagues, internal employees, customers and business partners

### Internet Call Access™

Provides significant savings by sending and receiving phone calls over the Internet.

### Virtual Private Network™

Allows access to the office intranet over a secure connection at a lower cost than other alternatives.

# Allworx systems – the only right choice

The Allworx system is a state-of-the-art communication system that integrates three essential business operations into one simple system. It is a feature-rich phone system, a robust data network system and software tools that substantially improve your company’s productivity while saving you on-going monthly costs.
